

Q:

What
makes new
Keralite[®]
Select
different
from other
glass
ceramics?

THE ANSWER'S IN THE GLASS.

Introducing Keralite Select from Vetrotech.

Our advanced composition, combined with patent-pending surface polishing technology, creates a float-like surface quality for the sharpest, most accurate color viewing glass in its class.

Keralite Select stands out from other fire-rated glass ceramics with a 97.1 color rendering index, high VLT, and the lowest haze value available. See for yourself.
